DEVELOPER DOLLARS IN ST. CHARLES ELECTION

It has come to our attention that a Missouri political action committee known as "Missouri Leadership Fund" is attempting to influence key city council races in the City of St. Charles. This PAC has received numerous donations from developers in the area.

The "Missouri Leadership Fund" PAC spent more than \$1,000 of direct expenditures on City Council Candidates Chris Kyle from Ward 1, and Mark Hollander of ward 2. Residents of Wards 1 and 2 received attack mailers targeting Bill Otto of Ward 1, as well as Tom Besselman and Venetia Powell of Ward 2 paid for by Missouri Leadership Fund.

These filings raise questions about potential developer influence in our elections and why developers are backing certain candidates. Vote wisely to protect your water, and demand full transparency in our elections.

Scott Stratton-Henderson
Founder & President, Stewards of Saint Charles
